Kirill Taletski

Senior Frontend Engineer

taletski | taletski.dev | kirill@taletski.com | linkedin.com/in/taletski | +375(29)111-27-51
Gomel, Belarus

Summary

- Senior Frontend Product Engineer with strong product ownership, growing backend capability, and a solid scientific foundation.
- 6 years of product-focused engineering with TypeScript, React and Next.js.
- Recent experience as a Technical Product Leader, shipping features that doubled subscribers to over 20,000.
- Architected and built core systems for OAuth, payments (Stripe), AI features and UI component libraries used by multiple squads.
- Ensured production stability by creating a BDD test harness that resulted in zero P1-P3 frontend bugs for 12 consecutive months.

Experience

Frontend Lead & Tech PM	**getquin**	**Oct 2024 - Present**

- Led 5-engineer squad owning data-import & AI features; Drove OKRs, sprint cadence, release sign-off.
- Owned the full delivery pipeline - from ideation and prototyping to implementation and post-release impact analysis.
- Designed & coded React/TypeScript "AI Import" wizard (beta); Modeled API cost + LTV sustainable pricing model.
- Extended "AI Chat with Your Portfolio" with dividend/performance APIs; −20% latency, +30% messages/user/week.
- Ran 30+ customer interviews; Converted the two highest-voted customer pain points into live features.

Senior Frontend Engineer	**getquin**	**May 2022 - Present**

- Built the front-end OAuth flow for 2 brokerage data aggregators; onboard 4k new users/mo and have driven 3k+ paid conversions since launch.
- Architected and launched a new OAuth for flagship broker - change that kept the integration live under new PSD2 rules; cut sync failures 8% → 3% for 10k paid accounts.
- Authored core UI-Kit components (React, Storybook) adopted by 4 squads; eliminated dozens of one-off components and halved design-hand-off time
- Built BDD test harness (Cypress + Cucumber) for brokerage auth flows; caught dozens of edge-case regressions pre-release, zero P1-P3 frontend incidents in 12 months.

Product Engineer (Full Stack)	**Jitsu**	**Jun 2021 - May 2022**

- Replaced manual email payment links with self-serve Stripe checkout; built full-stack flow (React, Node, Supabase) cutting collection time and enabling scalable subscription-based billing.
- Rebuilt jitsu.com landing and docs with mobile-first, accessible design; eliminated legacy layout bugs and delivered consistent UX across all devices.
- Built global state layer with MobX; cut redundant API calls, ensured lag-free, 60fps UI interactions.

Frontend Engineer	**Innowise**	**Jul 2020 - Jun 2021**

- Led front-end build of US tourism web app (React, Redux, TypeScript, Mapbox).
- Delivered conference platform UI; enabled business-matching flows used by 10k attendees.
- Extended React-based CMS dashboard for the Oil industry.

Computational Physicist Associate	**RadiaBeam Technologies / UCLA**	**Oct 2018 - Jun 2020**

- Developed numerical simulations to optimize RF cavities for quantum computing, achieving a 12% improvement in core performance metrics (Q-factor).
- Built a data post-processing pipeline using Python and Pandas to analyze 100GB+ datasets from physics experiments.

Education

M.S. in Applied Physics - Particle Accelerators	**Sep 2017 - Jan 2019**
National Research Nuclear University "MEPhI"	Moscow, Russia
B.S. in Applied Physics - Particle Accelerators	**Sep 2013 - Jul 2017**
National Research Nuclear University "MEPhI"	Moscow, Russia

Skills

Front-End & Back-End

- Expert: TypeScript, React, Next.js, JavaScript, HTML, CSS.
- Proficient: Node.js, Fastify, React Native, Tailwind, Redux, MobX, Apollo GraphQL Client (Cache), GQL Codegen, SQL, PostgreSQL, Prisma, Docker.
- Familiar: Rust, HTMX, Vue, Nuxt.js, Objective-C, Swift, Kotlin, NoSQL, Firebase, Supabase, Python, SciPy, Pandas, PyTorch.

Technologies & Practices:

Stripe, Mapbox, Leaflet, Figma, Lovable, Vim, NeoVim, SEO, Lighthouse, SDLC, Scrum, Requirements Analysis, Software Design, Software Architecture, Code Review, CI/CD, Software Deployment, REST API, Unit Testing, Integration Testing, End-to-End (E2E) Testing, Data Structures, Algorithms, Analytical Skills, Critical Thinking

Languages

- English - Fluent / Professional (C1/C2)
- Russian - Native
- Belarusian - Native
